

MSD Launches New Warrior Website!

The Methacton School District Athletic Office recently set important goals of centralizing all clubs and sports onto one attractive and user-friendly website in order to best promote the efforts and accomplishments of our students, and providing information about athletic events and activities to the Methacton community.

"This site should provide a forum for us to accomplish both of these goals, while still remaining user friendly for our coaches and club sponsors that we all recognize are extremely busy," Methacton High School Assistant Principal for Athletics and Activities Paul Spiewak said.

The new site will feature up to date sports schedules, team and club news and events, photos of athletes in action and more. You can find the new Warrior website at www.methactonwarriors.org.
