

### **The Messenger - A New Look**

The *Methacton Messenger*, now in its seventh year of distribution, has been revamped to provide our community with information in the digital age.

Since the 2009-2010 school year, the *Messenger* has been distributed online, with issues posted to the District's website, and no longer mailed to homes in an effort to save postage and printing costs.

Feedback has been largely positive, and plans were in place to modify the Messenger in order to make the online user experience more appealing. In addition, removing the costs and constraints of printing and mailing will allow for more frequent distribution of the *Messenger* - bringing District news to our readers while it develops.

"Maintaining frequent communication with all District stakeholders has long been a commitment of Methacton, and the revisiting of our primary newsletter is an important part of accomplishing that mission," Methacton Superintendent Dr. Timothy J. Quinn noted.

Readers are asked to share feedback with Methacton's Coordinator of School and Community Information, Angela Linch, at [alinch@methacton.org](mailto:alinch@methacton.org) or by phone at 610-489-5020.
