

SPOTTED LANTERNFLY HACKATHON

Spotted Lanternfly is an invasive insect that could greatly impact the Pennsylvania economy. This insect has the potential to severely damage the grape, hops, and logging industries. Early detection is vital for the protection of Pennsylvania businesses and agriculture.

DCIU

MCIU

ABOUT THIS HACKATHON

The Spotted Lanternfly Hackathon invites groups of students in grades 9-12 at each of the four PA SEED Intermediate Units in southeast Pennsylvania to design an app or platform to easily track, detect, identify and access information about the Spotted Lanternfly.

NO COST TO YOUR SCHOOL

Each school will receive \$100 for substitute reimbursement and \$190 for travel to and from the Hackathon.
