

# STEAM Day Presenter Template

On this slide, include your name and career you will be sharing about.

# Introduction

- This slide should include:
  - A brief introduction of yourself
  - A description of your job

# Background

- This slide should include:
  - How did you get interested in your career?
  - What specific classes, higher education, and/or certifications were required for this job?

# Pros and Cons

- This slide should include:
  - Positives about your career; any perks?
  - Negatives about your career; any downside?

# Salary

- This slide should include:
  - A general range of how much you could make doing this job
  - Please do not include your specific salary!

# Relation to STEAM

- This slide should include:
  - An explanation of how your job relates to STEAM (Science, technology, engineering, arts, mathematics)
  - You should relate to at least 2 components

# Interactive Activity

- Get these kids up and moving!
- How could you get them involved?
  - Could you demonstrate a specific part of your job?
  - Could you do an experiment/activity involving students?

# Reflection/Closing

- End the presentation with a brief summary that ties together the interactive activity and how it relates to STEM
