

ARROWHEAD ELEMENTARY SCHOOL CONSTRUCTION SNAPSHOT

August 2022

Highlights

Collaborative Classroom Design

Former school with trapezoidal classrooms now rectangular along with flex furniture allows consideration of student needs and group collaborative learning.

Safety & Security

Site and building designed with increased safety and security elements including separate bus and car loops, visitor control vestibule, controlled after-school building segmentation, camera system and much more.

Library & STEM Laboratory

An increase of library space by 1,320 square feet with dedicated STEM laboratory provides opportunities for enhanced learning and student growth in a flexible learning environment.

Gymnasium & Cafeteria

Former gymnasium served as cafeteria now a separate space for both allows greater flexibility in scheduling, student access, & opportunity for more school, after school and community-based programs & use.

Stage

300 square feet more stage space with wheelchair access and performance, sound, and lighting features that enrich the experience when showcasing student performances.

Energy Efficient/ Visually Appealing

Building incorporates use of natural light, LED lighting, sound absorption elements, smooth monolithic finishes, a reduced electrical and water usage/costs & ability to maintain long-term visual appeal.

Flexible Space

Structure centralizes Nurse, School Counselor, and Psychologist & includes student cubbies, tack boards, more storage, small group rooms, an outdoor classroom, & standard-sized rooms with greater visibility, security, and technological resources to enrich the academic & social emotional experience.

By the Numbers

as of August 25, 2022

Opening August 30, 2022

Target Construction Budget = \$33,787,820

Actual Construction Costs = \$28,720,548

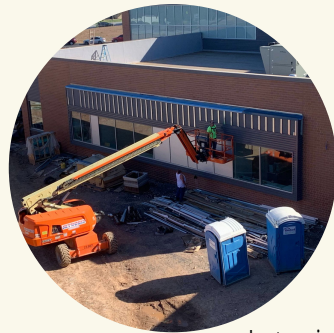

Under Budget by = \$5,067,271

CONSTRUCTION TIMELINE

November 2020

Board approves bids for construction of a new Arrowhead Elementary School

September 2021

Interior framing underway

November 2021

Electrical, plumbing and mechanical systems installation begins

August 2022

Opening of new Arrowhead Elementary School
