

ABOUT METHACTON SCHOOL DISTRICT

The Methacton School District has long enjoyed a tradition of excellence in education and community involvement in our schools. The District, formed in 1969, was created by a 10-year merging of the school districts that had previously served the Townships of Lower Providence and Worcester. “Methacton” is a Native American word referring to the “hill” area extending from Eagleville in Lower Providence Township through the Fairview Village area of Worcester Township, one of the highest elevations in Montgomery County. The name was chosen by a majority vote of the community members residing in the District at the time.

"SHARK TANK"-STYLE COURSE TEACHES LESSONS IN ENTREPRENEURSHIP

New for the 2021-2022 school year, INCubatoredu is a full-year course through Uncharted Learning that offers students a hands-on entrepreneurship experience. Students develop their own product or service, hear from industry professionals, and then pitch their business ideas in a final "Shark Tank"-style event. Methacton High School hosted its final pitch event on June 1, 2022.

CONGRATULATIONS TO THE 2022 FINAL PITCH WINNERS!

- 1

PHLOTHES | A cell phone case with customizable and interchangeable inserts that makes changing the style of your phone easier and more economical.
- 2

YOU DON'T REALLY CARE | A sustainable clothing brand that offers an ecologically made sweatshirt that has a story behind each design.
- 3

KRAFTABLES FOR KIDS | A monthly subscription craft kit filled with STEM related activities that is shipped directly to your house.

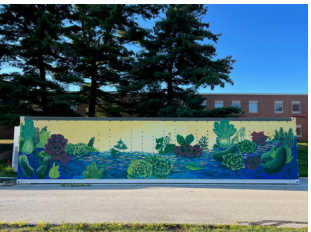

WINDY HILL HYDROPONIC FARM CULTIVATES STUDENT GROWTH

Methacton High School is proud to be the first high school in Pennsylvania to operate its own student-run hydroponic farm, Windy Hill Farm! The vision to bring this incredible project to life sprung from the minds of our talented high school science teachers: Mr. Steve Savitz (Environmental Science), Mr. Jeremy Walton (Biology), and Mrs. Tracy Murray (Biology). The vertical hydroponic farm is custom-built and contains state-of-the-art technology that receives electricity and fresh water into the shipping container frame.

Students planted the first seeds in January 2022. By the end of the school year, the farm yielded more than 2,000 plants, including tomatoes, cucumbers, several types of lettuce, and herbs.

The Hydroponic Farming course supports the district's focus on Science, Technology, Engineering, and Math (STEM). It includes opportunities for hands-on experience and a lab component. The course also places a strong emphasis on business, marketing, computer science, and mathematics concepts.

A MESSAGE FROM THE SUPERINTENDENT

As we reflect on the 2021-2022 school year, it is important to celebrate all of our collective accomplishments and to recognize that our students, their families, our staff, and our community have persevered.

We remained firm and consistent in our mission through the pandemic and have moved on toward recapturing a teaching and learning environment reminiscent of pre-pandemic times.

In an extraordinary way, each of us has supported one another as we learned to navigate in one of the most challenging times. To imagine that we would have:

- begun construction on a new elementary school;
- finalized planning to start full-day kindergarten;
- extended the R.E.A.C.H program to the elementary level;
- recruited and hired a K-12 DEI and Climate Counselor;
- met substantial completion on the Eagleville Elementary School renovation;
- completed the High School Canopy and Pads project;
- established additional safety measures including a partnership with Bus Patrol to equip school buses with

- stop-arm cameras to deter drivers from illegally passing stopped school buses;
- managed through the effects of Hurricane Ida;
- partnered with the Methacton Education Foundation to support the new INCubatoredu (Entrepreneurship class) program, Freight Farm and Forensics Lab;
- provided supplemental learning resources including a virtual Math Help Desk for grades 7-12 and an after-school remediation program for elementary students, among many other accomplishments.

Most important, as we continually strive to ensure an exceptional Methacton School District experience for all, our work is targeted at achieving even more strategies while remaining focused on increasing district rank and favorable feedback.

With so much to be proud of, I am most proud of the never-ending desire from this school community to want and to work toward a better tomorrow.

Sincerely,
Dr. David Zerbe
Superintendent of Schools

MISSION

Methacton School District is an exemplary student-focused and community-centered environment that prepares learners to meet the demands of our evolving world.

VISION

Methacton School District will empower all learners to develop talents, encourages personal growth and success, and inspire leadership to transform our future.
