Health & Safety Plan for Athletics and Marching Band

Introduction

The COVID-19 pandemic has presented student athletics and student activities with a myriad of challenges. Recognizing that it is not possible to eliminate all risks of contracting COVID-19, the Methacton School District has considered the advice from health experts as well as the CDC, NFHS and PIAA and is following similar plans to other Pioneer Athletic Conference School Districts. This plan outlines actions that we will take to reduce the risks to students, coaches, and their families during the official return to play on August 17, 2020 (August 10 for the week of football hydration testing). MSD recognizes that knowledge regarding COVID-19 is constantly changing as new information and treatments become available. Where and when appropriate, this plan may be modified and updated for the safety of those involved.

The following Health and Safety plan will be in effect during the Red, Yellow, and Green phases determined by the State of Pennsylvania.

The approved plan will be posted electronically on the following websites: www.methacton.org and www.methactonwarriors.org

Point of Contact

The primary point of contact for all questions related to COVID-19 as in relation to the Health and Safety Plan for Athletics and Marching Band:

Dr. Paul Spiewak
Director of Athletics and Activities - Methacton School District
1005 Kriebel Mill Road
Eagleville, PA 19403
pspiewak@methacton.org
610-489-50954

Anticipated launch date for official return to sports: **August 10, 2020**

Requirements

The following requirements are for all Middle School and Senior High School contests and practices.

1. Students, Coaches, and Staff will undergo a COVID- 19 health screening prior to any practice, event, or team meeting that does not immediately follow a day of in-building schooling (students who go home between school and the team event for that day must submit the COVID-19 survey). The purpose is to check for signs and symptoms of COVID-19. Student checks will be conducted through a screening survey completed by the parent/guardian via google form to the coach.
2. Promote healthy hygiene practices such as hand washing (20 seconds with warm water and soap) or the use of hand sanitizer.
3. Encourage social distancing through increased spacing, small groups, and limited mixing between groups, if feasible.
4. Educate Athletes, Coaches, and Staff on health and safety protocols with information supplied to you by the school district, not from your personal research.
5. Anyone who is sick is required to stay home. If you are sick, report it to your immediate supervisor. Alternative plans can always be made!
6. Athletes and Coaches **MUST** provide their own water bottle for hydration. Water bottles must not be shared. This includes the use of large “water or drink” coolers.
7. Personal Protective Equipment (PPE) (gloves, masks, eye protection) will be used as needed and situations warrant or determined by local/state governments.
8. Identify Staff and students who may be at a higher risk of severe illness from COVID-19 due to underlying medical conditions. Make alternative arrangements if needed.

Considerations:

1. Custodial staff will clean and disinfect commonly shared athletic equipment and areas on a minimum nightly basis.

2. Different times will occur for practices, so overlap between and amongst sports does not occur on campus who share the same facilities and locker rooms. All practices will be coordinated through the Athletics and Activities Office.
3. Meetings will be held with coaches of all levels (Varsity, JV, and Middle School) to discuss practice plans and safe protocols for returning to play prior to any group's official start.
4. Once play resumes, all scheduling modifications (canceling and/or rescheduling) of practices and games will be done by the Director of Athletics and Activities or MSD Administration.

Classification of Sports

Higher Risk: Sports that involve close, sustained contact between participants, lack of significant protective barriers, and high probability that respiratory particles will be transmitted between participants.

Examples: Wrestling, football, boys lacrosse, competitive cheer

Moderate Risk: Sports that involve close, sustained contact, but with protective equipment in place that may reduce the likelihood of respiratory particle transmission between participants OR intermittent close contact OR group sports OR sports that use equipment that can't be cleaned between participants.

Examples: Basketball, volleyball, baseball*, softball*, soccer, field hockey, tennis*, swimming relays, pole vault*, high jump*, long jump*, girls lacrosse, 7 on 7 football*

*Could potentially be considered "Lower Risk" with appropriate cleaning of equipment and use of masks by participants

Lower Risk: Sports that can be done with social distancing or individually with no sharing of equipment or the ability to clean the equipment between use by competitors.

Examples: Individual running events, throwing events (javelin, shot put, discus), individual swimming, golf, weightlifting, sideline cheer, cross country running (with staggered starts)

Transportation

Modifications for student/coach transportation to and from athletic/activity events may be necessary. This may include:

1. Reducing the number of students/coaches on a bus/van
2. Using hand sanitizer upon boarding a bus/van
3. Social distancing on a bus
4. Wearing face coverings on a bus
5. Limiting events to a certain performance level (Varsity, JV, Freshman, Middle School)

These potential modifications will be determined by the school district, bus companies, Department of Education, State and Local governments.

Who is allowed to attend an event?

Grouping of people into tiers from essential to non-essential and decide which will be allowed at an event:

- Tier 1 (Essential) – Athletes/Activity members, coaches, officials, event staff, medical staff, security
- Tier 2 (Preferred) – Media
- Tier 3 (Non-essential) – Spectators, vendors (when available spacing is limited under spectator guidelines, athletic office has the authority to pre-select based on grade level of student (senior parents, then junior parents, etc.).

Tier 1, 2 and 3 personnel will be allowed to attend events while following state/local government restrictions on mass gatherings.

Changes to seating capacity and social distancing may be necessary for each venue facility and will be determined as more recommendations are released by the local/state governments.

Overnight/Out of State Events/ Events in COVID-19 Hot Spots

The Methacton School District will evaluate each event and follow all local/state government guidelines on a case by case basis. Every consideration will be taken as to not expose students to unnecessary or potential high-risk exposure.

Symptoms of COVID-19

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness.

Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

This list does not include all possible symptoms. CDC will continue to update their website as we learn more about COVID-19.

COVID-19 Everyday Prevention Actions

The Centers for Disease Control and Prevention is working to help keep you and your community safe from the threat of novel, or new coronavirus. Take the following everyday steps to help avoid the spread of all respiratory viruses:

- Wash your hands often with soap and water for at least 20 seconds.
- Cover your cough or sneeze with a tissue, throw the tissue away, and then wash your hands.
- Avoid touching your eyes, nose, and mouth.
- Clean and disinfect frequently touched objects or surfaces such as remote controls and doorknobs. Avoid close contact with people who are sick.
- Stay home if you are sick. Call your doctor if you develop fever, cough, or difficulty breathing.

What to do if a student or staff become ill with COVID-19 symptoms during practice, event, or during transportation to or from an event?

1. Every effort will be made to isolate the ill individual from others, until the student or staff member can leave the school or event.
2. If a student, parent/guardian will be contacted immediately, and arrangements will be made for the student to be picked up.
3. The ill individual will be asked to contact their physician or appropriate healthcare professional for direction.

Return of student or staff to athletics/activities following a COVID-19 diagnosis?

1. Students/Coaches who were previously diagnosed with COVID 19 and have recovered must receive a written clearance from his/her physician and submit the written documentation to the Athletic Trainer. The Athletic Trainer must clear the student and contact the coach prior to the student returning to participation.
2. If any student tests positive for COVID 19 and attended a workout/practice or was on the school campus within a 14-day period, he/she must appropriately notify the Athletic Trainer and Director of Athletics and Activities of the matter and testing results. Contact tracing will then be initiated by school personnel and communicated directly to the Director of Athletics and Activities and/or Building Principal.
3. Student or staff should have medical clearance from their physician or appropriate healthcare professional, determined to be non-contagious, Fever free (without fever-reducing medicine), improvement in respiratory symptoms (cough, shortness of breath), no vomiting or diarrhea.

Education of Staff

Staff, Coaches, Parents and Participating Students will be educated on the following (through posters, flyers, meetings, emails, phone calls, etc.):

1. COVID-19 signs and symptoms
2. Proper ways to limit exposure to COVID-19 (hand washing, cough in your elbow, disinfecting touched surfaces, social distancing, avoid touching eyes, nose, face and mouth, no spitting, gum chewing, etc.)
3. No Handshakes/Celebrations (high fives, fist/elbow bumps, chest bumps, hugging), etc.
4. The content of this Health & Safety Plan.
5. Any pertinent COVID-19 information released by state/local governments, NFHS, and PIAA.
