TRANSPORTATION MERGER – PRELIMINARY PROPOSAL

Agenda

- ▶ Rationale
- ▶ Data
- ▶ Map
- ▶ Operation
- ▶ Construction

Rationale

- ▶ Reduces number of buses and drivers required
- ▶ Saves approximately \$370K annually
- ▶ Long term efficiency in routing/operation
- ▶ Will decrease the overall ride time for students
- ▶ Provides for all buses to be on campus for dismissal
- ▶ Provides best proximity for bus loading and unloading
- ▶ Allows for safer and a more controlled traffic flow around campus

Data

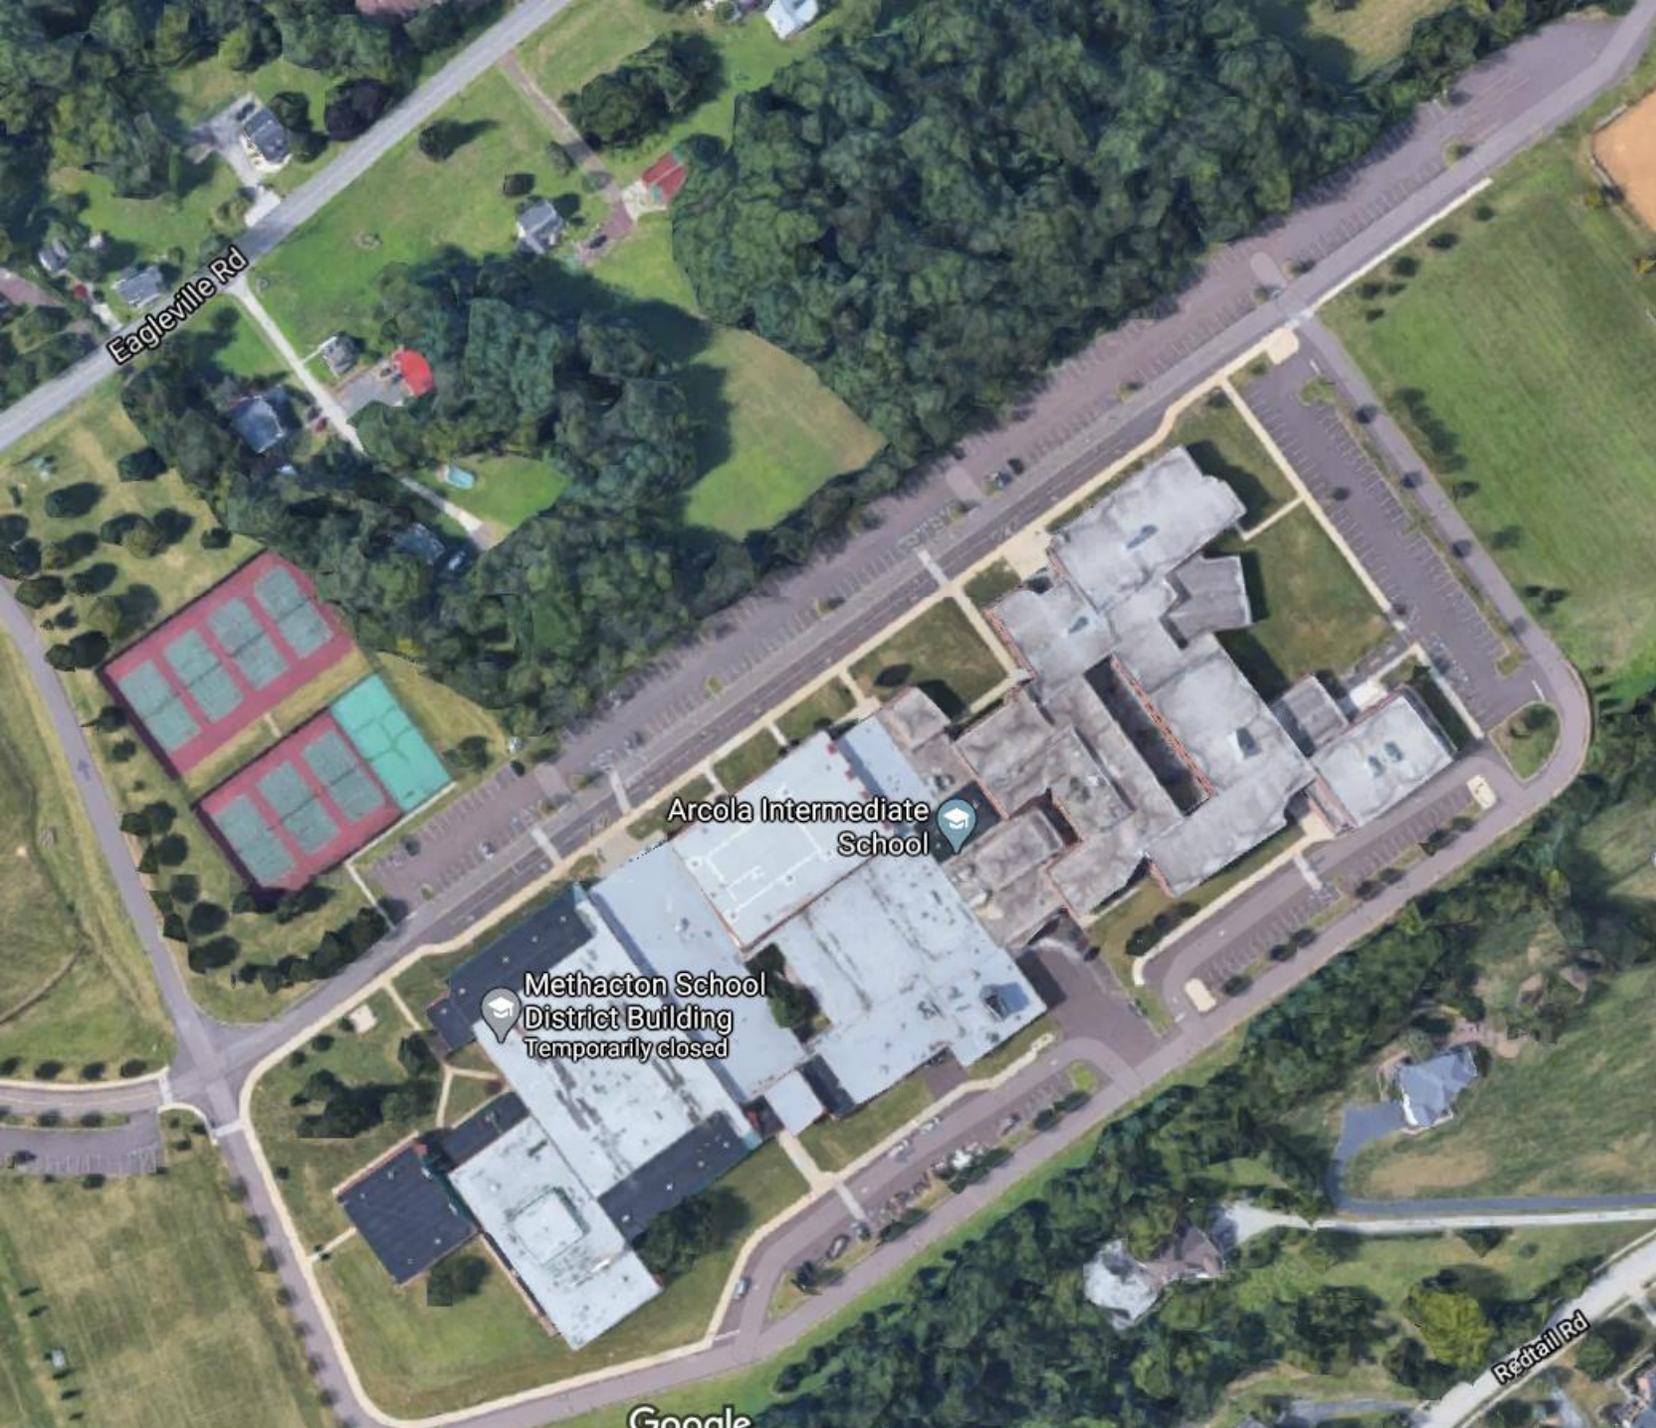

- ▶ 764 bus stops for Arcola and Skyview students combined
- ▶ 183 bus stops currently shared by Arcola and Skyview students
- ▶ Bus ridership (spread across all routes/bus capacities)
 - ▶ Arcola
 - ▶ 28 students per AM bus and 27 students per PM bus with 570 riders on average per route
 - ▶ Skyview
 - ▶ 38 students per AM & PM bus with 618 riders on average per route
 - ▶ Calc = 2 per seat at Arcola and 2.5 per seat at Skyview to combined 2.25
- ▶ Student Enrollment
 - ▶ Arcola/Skyview Enrollment for next school year projected at 1,518 or 29 students less than current total (based on Oct 1 enrollment)
- ▶ Car Traffic
 - ▶ Peak car traffic in AM is estimated to be 650 (continuous flow)
 - ▶ Peak car traffic in PM is estimated to be 400 (parked/proceeding to enter campus)
