METHACTON SCHOOL DISTRICT

Fueling Stations Project

2021

Fueling Stations Project

Brief History

- In early 2020 the DEP determined that the fuel tank located in the transportation area required closure
- Methacton School District requested emergency approval to have the project completed within the DEP timeframe
- Methacton School District obtained a temporary tank that would be used in place of the closed tank
- The tank closure was completed and temporary tank put in place

Fueling Stations Project

Project Scope Includes

- 12,000-gallon diesel tank
- 2,000-gallon gasoline tank
 - The gasoline tank will eliminate the need for buses to fuel at gas stations
 - Fuel will be bought on the futures market at prices that could save \$7,500 - \$10,000 per year depending on pricing.
- Premanufactured canopy that will shelter the pumps
- All related necessary site, electrical and underground work etc.
