# Methacton High School Campus Planning Process

Board Update 2/27/2024

HIGH SCHOOL

METHACTON

### Goal

- Develop a comprehensive campus plan
  - Consider the information
    - 2023 Facilities Assets with Conditions assessment
    - Recommendations from Methacton High School Campus Planning Committee
    - Financial Analysis from PFM and District Business Office
    - Owners Representative estimates of pre-conceptual options and costs

### Option 1

#### In-Place Renovation

#### **High School**

- In place renovation in current footprint only
  - Renovate Z1, Z2 & Z3
  - MEP only in Z4
  - No main gym work

#### **District Admin Office**

• In place renovation in current footprint only

#### **Transportation Building**

• In place renovation in current footprint only

#### Sewer Plant

• Move off site

Option Number	Option 1			
Description of Option	In-Place Renovation			
Gross Area	278,000 SF Renovations			
Description of Scope	Quantity	Quantity Unit Cost		
Demolition of Existing Building Structure and Foundations				
New Building Construction				
Renovations MEP Zone 4		lump sum	\$	5,700,000
Renovations (\$140/sf MEP, \$60/sf GC, \$15/sf windows)	278,000	\$ 215.00	\$	59,770,000
Level 2 Renovations (add \$45/sf for partitions and minor struct)		\$ 260.00	\$	-
Level 3 Renovations (add \$80/sf for add'l GC, structural)		\$ 340.00	\$	-
Site Work Allowance - Earthwork, Parking Lot and Driveway		lump cum	\$	750,000
Construction, Sidewalks, Retaining Walls, Utilities, Etc.		lump sum	Ş	750,000
Abatement Allowance (Scope TBD by Consultant)		lump sum	\$	1,000,000
Phasing Costs (modular classrooms, partitions, etc.)		lump sum	\$	5,000,000
Total Estimated Hard Construction Costs			\$	72,220,000
Fees, Permits, Inspections, FF&E, Utilities, and Misc. Soft Costs			÷	0.000 400
(15% of Est. Hard Costs - 12% Option 1; 13% Option 2)			\$	8,666,400
Design/Estimating Contingency (5% - 3% Option 4A)			\$	3,611,000
Construction Contingency (5%)			\$	3,611,000
Total Estimated Soft Costs			\$	15,888,400
Sewer Plant Demolition and Interconnection		lump sum	\$	625,000
Transportation Building Renovation		lump sum	\$	332,700
Total Project Costs without Inflation			\$	89,066,100
Design Phase Duration	1.5	Year		
Construction Duration	2.00	Years		
Years to Midpoint of Construction (est)	2.50	Years		
Inflation Factor - Assume 3% per Year Compounding to Midpoint of	2.00/	7 70/	ć	F C00 100
Construction	3.0%	7.7%	\$	5,689,100
Total Project Budget with 3% Inflation per Year			\$	94,755,200
Inflation Factor - Assume 5% per Year Compounding to Midpoint of	F 00/	12.0%	<i>.</i>	0 (22 000
Construction	5.0%	13.0%	\$	9,622,800
Total Project Budget with 5% Inflation per Year			\$	98,688,900
Total Project Budget Range	\$ 95,000,000	to	\$	99,000,000
				-,

**•** • • •

## Option 2

Renovation plus Auditorium & Natatorium Additions

#### **High School**

- In place renovation in current footprint
  - Renovate Z1, Z2 & Z3
  - MEP only in Z4
  - No main gym work
- Pool & auditorium additions

#### **District Admin Office**

• In place renovation in current footprint only

#### **Transportation Building**

• In place renovation in current footprint only

#### **Sewer Plant**

• Move off site

4

Option Number	Option 2			
Description of Option	Renovation with Auditorium & Natatorium Additions			Natatorium
Gross Area	258,000 SF Renovations & 40,000 SF Addit			SF Additions
Description of Scope	Quantity	Unit Cost		Total
Demolition of Existing Building Structure and Foundations	20,000	\$ 6.00	\$	120,000
New Building Construction	40,000	\$ 370.00	\$	14,800,000
Renovations MEP Zone 4		lump sum	\$	5,700,000
Renovations (\$140/sf MEP, \$60/sf GC, \$15/sf windows)	258,000	\$ 215.00	\$	55,470,000
Level 2 Renovations (add \$45/sf for partitions and minor struct)		\$ 260.00	\$	-
Level 3 Renovations (add \$80/sf for add'l GC, structural)		\$ 340.00	\$	-
Site Work Allowance - Earthwork, Parking Lot and Driveway			~	2 500 000
Construction, Sidewalks, Retaining Walls, Utilities, Etc.		lump sum	\$	2,500,000
Abatement Allowance (Scope TBD by Consultant)		lump sum	\$	1,000,000
Phasing Costs (modular classrooms, partitions, etc.)		lump sum	\$	5,000,000
Total Estimated Hard Construction Costs			\$	84,590,000
Fees, Permits, Inspections, FF&E, Utilities, and Misc. Soft Costs			~	40.006.700
(15% of Est. Hard Costs - 12% Option 1; 13% Option 2)			\$	10,996,700
Design/Estimating Contingency (5% - 3% Option 4A)			\$	4,229,500
Construction Contingency (5%)			\$	4,229,500
Total Estimated Soft Costs			\$	19,455,700
Sewer Plant Demolition and Interconnection		lump sum	\$	625,000
Transportation Building Renovation		lump sum	\$	332,700
Total Project Costs without Inflation			\$	105,003,400

5.9 Improve overall traffic and safety on the HS campus.	
STUDENT RECOMMENDATIONS	
6.1 Look at all current large group gathering areas and re-purpose or	
re-design them. Areas in current format are not suitable for our	
students (LGI, Cafeteria, auditorium, library)	
6.2 Create additional spaces for locker rooms so that equipment is not	
stored in classrooms- poor use of classroom spaces.	
6.3 Expand hallways- Remove lockers and expand so that students can	
move about freely in hallways.	
6.4 Create spaces throughout the building for students that promote	
the culture of the building, tied directly into "spaces" above; create	
open/flexible seating option areas throughout by having lunch and	
learn spaces, places and options.	
6.5 Address the lighting all throughout the building, sound and	
lighting improvements	
6.6 Give the building a facelift that speaks to the WHO we are of MHS-	
building a entrance that is inviting and create a school bookstore that	
promotes all MHS merchandise.	
6.7 Address and remediate the current HVAC system and indoor air	
quality.	
6.8 Address the cellular capacity and add charging stations	
throughout the building.	
6.9 Provide students access to the building at set hours via swipe	
system for access, lunch and bookstore- tie the student ID into all.

Not Attained PLANNING COMMITTEE	Est. \$95M - \$99M	Est. \$112M - \$118M	Est. \$148M - 156M	Est. \$175M - 205M
Partially Attained RECOMMENDATIONS ATTAINMENT MAP	11=Green // 46=Red // 6=Yellow	12=Green // 42=Red // 9=Yellow	23=Green // 10=Red // 30=Yellow	60=Green // 2=Red // 1=Yellow
6.10 Review current HS schedule and seek options for changes to				
the current schedule through block scheduling, later start time.				
6.11 Allow students more time at lunch for lunch and learn OR				
time that they can leave campus.				
	STAFF RECOM	MENDATIONS		
7.1 Overhaul the HVAC system to improve air quality/climate within				
the building.				
7.2. Internet of the building of a second state of the second state				
7.2 Improve safety by building a new main entrance, installing alerts				
for doors left open, and improving Wi-Fi and cellular connectivity.				
7.3 Create innovative learning spaces to provide more opportunities				
for collaboration, engagement, and authentic learning.				
7.4 Provide proper spaces for music program, science program, Life				
Skills Education, ELD program, Technology Education program, and FCS				
program along with proper sized spaces and locations within building				
for offices and hallways that provide a high level of accessibility and				
movement.				
7.5 Address the congestion inside building by removing lockers and				
connecting the building on the second floor and address the				
congestion outside by fixing traffic flow, campus safety, and parking. In				
the long term, we recommend new construction.				
	CAMPUS SAFETY/	BUILDING SAFETY		
8.1 Improve traffic flow on and off campus for regular day traffic and				
emergency situations.				
8.2 Increase campus exterior lighting to improve visibility, deterrence,				
and surveillance.				
8.3 Harden the safety and security of outdoor common areas.				
8.4 Ensure the safety and security of students during a renovation or				
construction project.				
8.5 Provide reliable cell and Wi-Fi service throughout the building.				
8.6 Provide an internal building flow and movement conducive to the				
educational program.				
8.7 Construct spaces designed to support instruction during the day				
and to manage visitors and guests during the day and after hours.				
8.8 Take a balanced approach among aesthetics and safety when				
considering renovation/new construction on the campus or the				
building.

	HIGH SCHOOL AUDITORIUM, BAND ROOM, CHORAL ROOM, WEST WING CLASSROOMS (ZONE1)								
9.1 Build a state-of-th	he-art facility that will prepare our student body								
for their current inter	rests and desired careers, inspire our faculty and								
staff and engage our	community.								
9.2 Create collaborat	tive classrooms/hallway spaces/accessibility.								
9.3 Provide large mul	lti-use meeting spaces that can accommodate								
flexible groups.									
	HIGH	SCHOOL KITCHEN, POOL, BO	DILER ROOM, MAIN GYM (Z	ONE2)					
10.1 Create stan	dalone athletic wing that contains pool, gyms,								
weight room, locker/	/team rooms, etc. that will allow for parking,								
accessibility, and visit	tor management/security.								
10.2 Create worl	ld-class natatorium/pool.								
10.3 Right size sp	pacing of rooms to be more appropriate for usage.								
HIGH SCH	HOOL ART ROOM, SCIENCE CLASSROOM	IS, TECH ED CLASSROOMS, A	ATHLETICS OFFICE (ZONE 3)	+ LGI, PRINCIPAL'S OFFICE, M	ATH LABS (ZONE 4)				
11.1 Provide dedicate	ed office spaces in closer proximity to the								
athletics/activities sp	paces within the building.								
11.2 Improve ventilat	tion/HVAC/Wi-Fi/cellular in the building.								
11.3 Develop a S.T.E.	A.M. (Science/Technology/Engineering/Art/Math)								
	ion and engagement for all students, staff and								
	floor location with natural sunlight.								
	learning spaces for instruction.								
	nal building flow and movement conducive to the								
educational program	_								

### Further Explore Option 4

- Estimate 6 months to:
  - Engage the Board approved Architect, Owners Representative, and Solicitor
  - Meet with students, staff, parents, & community
  - Develop no less than 3 concept designs with more defined costs, timelines, and impact
  - Provide a public input process on concept designs
  - Provide recommendations & feedback at a special meeting in the future
- Impact of this decision on Methacton School District?
  - Provides direction in an exploratory process to develop concepts to provide greater specificity on a potential comprehensive plan
  - Provides the greatest potential in addressing challenges, future programming, and optimal experience
  - Is the least disruptive to the current and future educational operation/program/experience
  - Establishes a ceiling of outcomes with which future modifications can be derived/scaled back/consider alternates

### Timeline – Summary

- 2024-February 26-Online public feedback form opens
- 2024-February 29-Open Public Forum-Present Update/Hold Discussion/Gather Feedback
- 2024-March 11-Open Public Forum-Present Update/Hold Discussion/Gather Feedback
- 2024-March 19-Present feedback to public/Board
- 2024-March 26-Board determines first step forward (renovation, renovation with some new construction, new construction)
