# The results are in!

Which program did your students appear to enjoy more?

17 responses

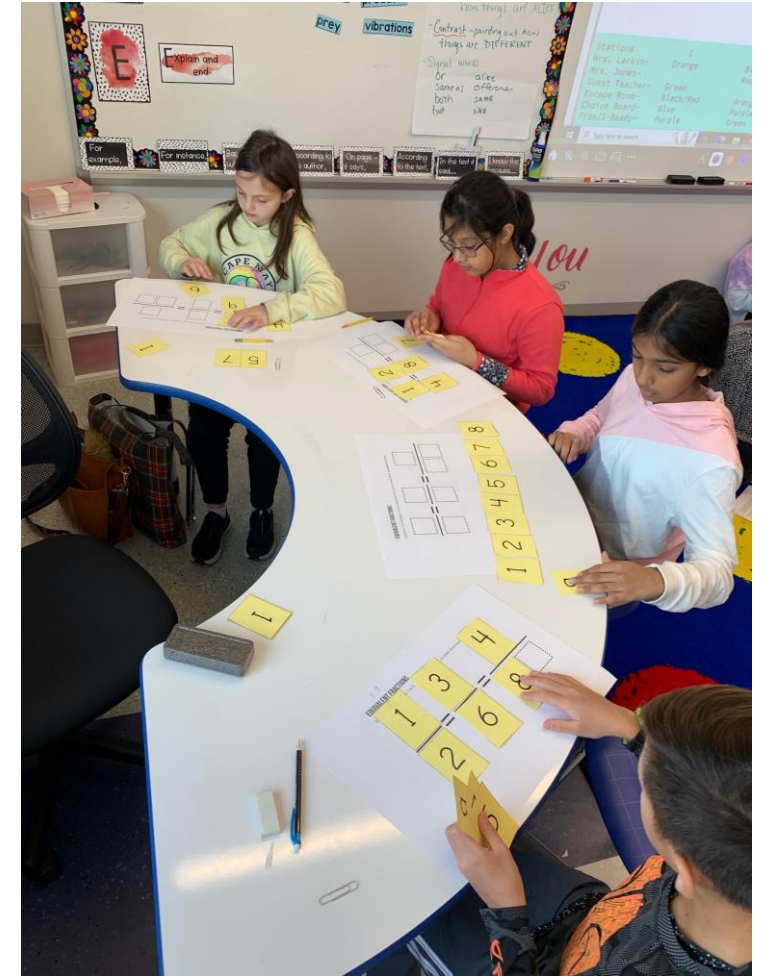

● Into Math  
● iReady Math

# Math in Action

# Perfect Timing

1. Our current resource is out of print
2. Math was the focus in our Curriculum Review Cycle
3. Student achievement data presents a need

# Our students will...

1. engage in *productive struggle* and *persevere* to effectively solve problems
2. *make connections* within their learning and to the outside world
3. *work collaboratively* to find solutions to a problem and to *justify their thinking* and method
4. develop a *positive mindset* around mathematics and problem-solving

# Our Journey

## 2021-2022

- Committee selected Into Math & iReady as possible programs.
- Pilot teachers were identified and provided materials and training.

## SUMMER 2022

- Pacing Charts were created to match current scope & sequence.
- Unit Zero resources were built to close skill gaps and prepare students for new learning

## FALL 2022

- Pilot teachers worked hard to learn both resources and shift their instructional model.
- Support was given through coaching, site visits, and trainings.

## WINTER 2023

- February 1st the pilot group unanimously chose iReady Math to recommend as the program to support our district math goals
