

## Methacton High School Summer School Remediation 2025

A student who fails a graduation requirement may remediate that course in Methacton's on-line summer school program (BVA), *through 30 hours of private tutoring* or through another pre-approved summer school program. If the course is not completed during the summer, he/she will repeat it during the next school year.

If the course is not completed during the summer, he/she will repeat the course during the next school year, which may result in the student not graduating in four years. Please consult with your child's school counselor for the details of repeating a course(s) next year.

**Methacton On-Line Summer School Information:** All expenses are the responsibility of the student.
