

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

The LEA identified students for inclusion in after-school programming by reviewing our RtII/MTSS data in the areas of reading and mathematics. Students participating in Tiers 2 and 3 were invited to attend the program that started in November 2021 and will end in April 2022. In addition, the district extended invitations to our vulnerable student populations. The district is providing transportation at no cost to families to ensure that participation is not limited due to this barrier.

Section: Narratives - After-school Program

After-school Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children with Disabilities	Academic Growth	36	The district conducted baseline assessments of all students and will use progress monitoring data to determine/measure the impact of this program.
Children from Low-Income Families	Academic Growth	23	The district conducted baseline assessments of all students and will use progress monitoring data to determine/measure the impact of this program.
English Learners	Academic Growth	34	The district conducted baseline assessments of all students and will use progress monitoring data to determine/measure the impact of this program.

3. Describe the evidence-based resources that will be used to support student growth during the after- school program.

The district will be utilizing several evidence-based resources to support student growth in this after school program. This includes Lexia COre5 Computer based Reading Interventions and Reflex Math. Both programs include progress monitoring tools so the district can continue to assess each student's progress.

4. Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
21	Internal	certified teachers
2	Internal	program coordinators

- a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

- b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
LinkIT Assessments	Baselines, Mid, End of Program	To see an increase in performance on the skills taught as measured by progress monitoring data.
Lexia Core5	Weekly	Program automatically generate data about student progress.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Reflex Math	Weekly	Program automatically generate data about student progress.

6. How will the LEA engage families in the after-school program?

The LEA has been in contact with all families who are participating in the after-school program. Many of our families are also reaching out to the teachers each week to check on their child's individual progress. Frequent communication by staff has been occurring, as well.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$19,311.00

Allocation

\$19,311.00

Budget Over(Under) Allocation

\$0.00

Budget Overview

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$19,311.00	This amount will be used to offset the costs associated with salaries for our teachers/program coordinators
		\$19,311.00
