

Section: Narratives - Needs Assessment

Introduction

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$ 249,848,000 or five percent (5%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to school districts, charter schools and cyber charter schools (collectively, LEAs) = to implement evidence-based interventions that address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that LEAs, at a minimum, use the funds they are awarded under this subgrant in the following ways: .

Percentage of LEA Allocation - Required Activities

30% - To address the social, emotional and mental health needs of students

10% - To provide professional development and technical assistance to educators, school support staff, school leaders and school health professionals to address the social, emotional and mental health needs of students.

8% - To address reading remediation and improvement for students

The remaining allocation may be used by the LEA to address and/or supplement other areas of learning loss caused by the pandemic.

Act 24 also requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer activities, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs.

Through this grant application, LEAs will meet their requirement of developing a three-part plan, including describing their planned programming, a narrative outlining the expected benefit of each program and activity, as well as an overview of how the LEA determined the areas of need to be addressed, including the use of stakeholder feedback.

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their

students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting student needs since March 2020.

Indicators of Impact

1. Understanding the Impact of the COVID-19 Pandemic: Describe how the LEA has identified or will identify the extent of the impact of the COVID-19 pandemic on student learning and well-being. Specifically, what methods (i.e., collecting and analyzing data and information from focus groups, surveys, and local assessment results) were used or will be used to identify and measure impacts in four key areas: (1) Social and Emotional Learning, (2) Professional Development needs to support Social and Emotional Learning, (3) Reading Remediation and Improvement for Students, and (4) Other areas of Learning Loss?

	Method used to Understand Each Type of Impact
Social and Emotional Learning	THE LEA used data from actual mental health counseling sessions to identify the students who needed additional mental health counseling over the summer. Each student's treatment plan was followed. This additional support was provided to all students who received support during the school year. In addition, the LEA has counseling support available for both students and families who needed help over the summer. Our school counselors held office hours and made appointments to meet with parents and/or students. Our school nurses were also available to support students and families throughout the summer so we could address any social/emotional or well-being concerns.
Professional Development for Social and Emotional Learning	The district will be conducting professional development for staff on the topic of trauma informed care. This will coincide with the development of the district's trauma-information care plan. We identified this as an area of need prior to the pandemic and have set additional funding to support this training in addition to this funds from this grant.
Reading Remediation and Improvement for Students	The district has used a series of evidence-based reading programs (Wilson, System 44, Read 180, Reading Horizons) to target our students who need additional interventions in the areas of reading. The LEA has made a committment to move Wilson and System 44 to 3rd grade so we can support students who require more intensive reading interventions.
Other Learning Loss	The district has provided access to asynchronous learning for all students in grades K-12 duiring the summer of 2021 so they could engage in learning and recoup, remediate or recover any learning loss. The LEA plans to offer this type of support again this year. Funds will be used to offset the cost of this asynchronous instruction, as well as to support the costs associated with credit recovery.

Documenting Disproportionate Impacts

2. Identify the student groups in the LEA that faced particularly significant impacts from the pandemic

in the areas of Social and Emotional Learning, Reading Remediation and Improvement, or any other areas of learning loss that the LEA will address with this funding source. For each, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Impact	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Reading Remediation and Improvement	Baseline and Progress monitoring data will be taken to identify any areas of need (skills) and student performance/growth.
Children with Disabilities	Reading Remediation and Improvement	Baseline and Progress monitoring data will be taken to identify any areas of need (skills) and student performance/growth.
English Learners	Reading Remediation and Improvement	Baseline and Progress monitoring data will be taken to identify any areas of need (skills) and student performance/growth.
Children with Disabilities	Social and Emotional Learning	Actual treatment plan data was used to determine the students who were in need of additional support over the summer.
Children from Low-Income Families	Social and Emotional Learning	Actual treatment plan data was used to determine the students who were in need of additional support over the summer.
Children from Low-Income Families	Other Areas of Learning Loss	Review of individual student data to determine if additional interventions are needed for academics or social, emotional needs.
		Review of individual student

Student Group	Area of Impact	Provide specific strategies that were used or will be used to identify and measure impacts
Children with Disabilities	Other Areas of Learning Loss	data and progress toward IEP goals to determine if additional interventions are needed for academics or social, emotional needs.

Section: Narratives - Learning Loss Program Questions

Learning Loss Program Questions: In this section, LEAs are asked to describe the activities they have designed to support accelerated learning to combat learning loss caused by the COVID-19 pandemic for their students. Please use the following link to ensure that your calculated values below are equal to the values published on PDE's website. The file contains your LEA's MINIMUM required reserves for Learning Loss to address SEL, SEL PD, and Reading Improvement. [Click to download reserve amounts.](#)

*LEA's can choose to spend MORE than the minimum required reserves for Learning Loss. Those values will be entered in the budget sections.

Section 3a – Social and Emotional Learning: As schools across the Commonwealth return to school, LEAs face increased challenges in addressing the mental health needs of their students and staff. LEAs are required to utilize **A MINIMUM of THIRTY PERCENT (30%)** of funding available through this grant application to support the Social and Emotional Learning of their students. In this section, LEAs are asked to describe the activities they have designed to address these needs. Please reference the SEL framework to assist in developing this plan.

3. Calculate 30% of LEA Allocation as the **MINIMUM REQUIRED RESERVE** for Social and Emotional Learning. *(Calculation will populate when you click the Save button)*
 - *This value will be needed in the corresponding budget section.*

	Total LEA Allocation	Multiply by 30% (.30)	Minimum Allocation for SEL
Minimum 30% SEL Requirement	96,553	30%	28,966

4. Describe the data sources the LEA is using to identify social and emotional needs of students and identify areas of strength and concerns in the learning environment.

The LEA use progress monitoring data from student's actual treatment plans to determine who may need additional support over the summer.

5. Program/Activities – Please describe the planned program activities and identify the type of activity and the number of students to be served by that activity.

Program Activity	Student Group	Type (Universal, Targeted, Intensive)	Number of Students Served
Mental Health Counseling	Children from Low-Income Families	Targeted	26
Mental Health Counseling	Children with Disabilities	Targeted	36
Intensive Mental Health Counseling	Children with Disabilities	Intensive	44

6. How will the LEA assess the success of the SEL program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Progress Monitoring Data	Bi-Weekly	Individual progress toward treatment goals

Section 3b – Social and Emotional Learning Professional Development: LEAs face increased challenges in addressing the mental health needs of their students and staff. LEAs are required to utilize **A MINIMUM OF TEN PERCENT (10%)** of funding available through this grant application to support professional development activities and technical assistance for educators, school support staff, school leaders and school health professionals to address the social, emotional and mental health needs of students. In this section, LEAs are asked to describe the activities they have designed to address these needs.

7. Calculate 10% of LEA Allocation as the **MINIMUM REQUIRED RESERVE** for Social and Emotional Learning Professional Development. (Calculation will populate when you click the Save button)

- This value will be needed in the corresponding budget section.

	Total LEA Allocation	Multiply by 10% (.10)	Minimum Allocation for SEL PD
Minimum 10% SEL PD Requirement	96,553	10%	9,655

8. Describe the planned professional development activities and how the activity will ensure that teachers/staff are equipped with training/support on the following:
- Social emotional learning and support for students that have suffered trauma during the COVID-19 pandemic;
 - Identifying signs of possible mental health issues and providing culturally relevant support;
 - Motivating students that have been disengaged;
 - Mentoring students who have attendance issues before it becomes a pattern;
 - Self-care and mindfulness strategies for teachers;
 - Engaging and communicating effectively with parents;
 - Working with community agencies to address non-academic needs.

Professional Development Activity	Number of Staff Involved	Type of Staff Involved (Teacher, Counselor, Support Staff, Admin, Other)	Provider – Who will present the professional development	Is the provider an internal staff member or an outside contractor?	Brief Description of the Planned Activity
a. Social emotional learning and support for students that have suffered trauma during the COVID-19 pandemic;	300	Teacher	TBD	External Contractor	Trauma Informed Care training and Development of Care Plan
a. Social emotional learning and support for students that have suffered trauma during the COVID-19 pandemic;	35	Admin	TBD	External Contractor	Trauma Informed Care training and Development of Care Plan

9. How will the LEA assess the success of the SEL professional development? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Creation and adoption of Trauma Informed Careall training Plan and completion of associated training	During 2021-2022 school year	Completion of trainings and implementation of plan

Section 3c - Reading Improvement for Students:

LEA allocations in Reading improvement should be used to increase the best practice in the implementation of research-based reading instruction and acceleration. As schools are planning the most effective use for this 8% set aside for reading instruction and acceleration, they should contemplate the use of structured literacy (also known as Science of Literacy) to develop reading instruction and remediation. Please reference the Structured Literacy framework to assist in developing this plan [LINK NEEDED](#)

LEAs are required to utilize **A MINIMUM of EIGHT PERCENT (8%)** of their ARP-ESSER allocation for research-based reading instruction. In this section, describe the course of action to remediate and improve reading gaps through research-based practices.

10. Calculate 8% of LEA Allocation as the **MINIMUM REQUIRED RESERVE** for Reading Improvement for Students. (Calculation will populate when you click the Save button)

- This value will be needed in the corresponding budget section.

	Total LEA Allocation	Multiply by 8% (.08)	Minimum Allocation for Reading Improvement
Minimum 8% Reading Improvement Requirement	96,553	8%	7,724

11. What local assessments were used to determine the need to address learning loss in the area of reading? For which specific groups of students was this need evidenced? What were the findings?

The LEA uses LINKIT benchmark assessments to determine baselines and progress throughout the school year. Data was also reviewed for students who participate in evidenced-based reading interventions, such as Wilson, System 44, Read 180 and Reading Horizon. We found that our students with disabilities and low income populations were in need of additional reading interventions. RtII and MTSS data was also used to identify students in need of additional interventions.

12. Does your data indicate that at-risk readers are making at least a year's worth of growth or more in one school year? *Please consider both state PVAAS data and local assessment data

No

Please explain:

Our vulnerable student populations did not demonstrate that they were making a year's worth of growth or more in one school year. We attributed this to both virtual and hybrid instruction. The LEA has provided and will continue to provide additional academic programs afterschool and during the summer, as well as review its current curriculum resources to further support the needs of our students.

13. Has the LEA used structured literacy and/or provided training for K-4, ESL, and Special Education teachers in structured literacy?

No

If so, please identify the training, grade level, and number of teachers involved.

Training	Grade Level / ESL / Special Education	Number of Teachers Trained

14. Describe the evidence-based instructional intervention(s) that address the identified needs of students most disproportionately impacted.

Intervention	Student Group	Number of Students Receiving Intervention	Brief Description of Intervention
Wilson	Children with Disabilities	43	The district uses contracted providers for this instruction.
System 44	Children with Disabilities	54	Staff trained in this method are providing this support to our students

Intervention	Student Group	Number of Students Receiving Intervention	Brief Description of Intervention
Read 180	Children with Disabilities	26	Staff trained in this method are providing this support to our students

15. How will the LEA assess the success of the literacy program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Progress Monitoring Data from Program	Weekly	Porgress in Lexile Score or Steps

Section 3d - Other Learning Loss Activities: LEAs are permitted to utilize the remainder of their allocation to support and/or supplement additional efforts being implemented to combat learning loss caused by the COVID-19 pandemic. Please use this section to describe those efforts.

*This value can be **UP TO 52%** of the total allocation, if minimum values were used for other reserves.

16. Calculate 52% of the remaining LEA Allocation **AS A MAXIMUM** amount to fund Other Learning Loss Activities. (Calculation will populate when you click the Save button)

	Total LEA Allocation	Multiply by 52% (.52)	Maximum Allocation for Other Learning Loss Activities
52% Other Learning Loss Activities	96,553	52%	50,208

17. Describe the evidence-based instructional intervention(s) that address the identified needs of students most disproportionately impacted.

Intervention	Student Group	Number of Students Receiving Intervention	Brief Description of Intervention
Lexia Core 5	Children from Low-Income Families	38	Computerized Instruction to address areas of reading
Lexia Core 5	Children with Disabilities	56	Computerized Instruction to address areas of reading
Reflex Math	Children from Low-Income Families	38	Computerized Instruction to address areas of math
Reflex Math	Children with Disabilities	56	Computerized Instruction to address areas of math

18. How will the LEA assess the success of the learning loss activities? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Progress Monitoring Data from Program	Weekly	Increases in student performance and growth (skills-based)
